HOUSE OF THE VERY ISLAND SPRING/SUMMER 2011

By Editor in [Fashion](#) on November 12th, 2010 | [Please Comment !! »](#)

Check out images from **House of the Very Island's** collection for **Spring/Summer 2011**. The collection is unisex, but we're only showing the guy models, just so you know!

House of the Very Island is a cooperation of four individual designers rooted in a network of underground artists, musicians and film-makers in **Vienna**. A therefore widely influenced notion of clothing is at the heart of our work, that lays it's formal accents on the bricolage, the deconstruction and reconstruction of given dresscodes. Combining our individual emphasizes, every collection forms a conceptual unity including a short film presented along with it.

For more info, check out **House of the Very Island's** [site](#), where you'll also find images from their **Fall/Winter 2010** collection, which we think you'll also love. We do.
